

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER  
MONITORING REQUIREMENTS NOT MET FOR**

**TYLER COUNTY PSD (FKA FRIENDLY PSD), WV3304801**

Our water system violated State drinking water requirements. Even though these were not emergencies, you, as our customers, have a right to know what happened and what we did to correct the situation.

*We are required to comply with State drinking requirements on a regular basis. During 11/1/2019 to 11/30/2019, we did not submit a monthly operational report or we did not submit sufficient chlorine residual readings.*

**What should I do?**

There is nothing you need to do at this time.

The table below lists the violation and the compliance period when the violation occurred.

Violation	Compliance Period
CHLORINE WB	11/1/2019 to 11/30/2019

**What happened? What is being done?** (Describe corrective action)

*Lab ERROR. Chlorine residual was on chain of custody for TRC sample but lab didn't put it on report. There was no issue with the quality of the water. Spoke to lab about making sure info is translated to report in the future.*

For more information, please contact TINA LANCASTER at 304-652-1401
